this book is based on the idea that instruction carries in built risks and instructional practices can be counterproductive unless used with care referencing a wide range of approaches to increasing effectiveness instructional risk provides an explanation of why some forms of instruction are less powerful than they should be elaborating on rather than advising against these forms of instruction it illustrates how teachers can use instructional practices effectively through managing risk and being adaptive in their use of them in the many and dynamic microsystems of the classroom the book is unique in bringing together disparate evidence from a range of research areas and across core curriculum areas of english language arts mathematics and science for a theory of instructional risk the basic proposition for which is that instructional approaches carry known and predictable risks the book focuses on the expertise required to overcome risks which are exaggerated for children from communities not well served by our schools the book is also a critique of research that is programmatic and limited to experimental evidence and summaries of that evidence which are uncritically developed into statements about what works made to be both an explication of the theory through repeated examples as well as a technical resource this book will be vital reading for lecturers and postgraduate students of education and educational psychology

this book is a synthesis and overview of a number of evaluations of french immersion programs in canada it is a non technical yet thorough description of canadian research in this area intended not only for researchers but also for parents educators and policy makers

the publication brings together the latest thinking in five areas important to bilingual education part one legal aspects deals with limitations and capabilities of the judicial process interpretations of major court decisions and implications of these decisions in terms of community members educators and school boards philosophies discussed in part two encompasses the need for philosophical diversity to account for the needs of marked and unmarked population differences clarification of philosophical disagreements and suggests bilingual education will contribute to the assimilation process rather than to cultural and linguistic pluralism the third part deals with social factors sociology of language ethnography of speaking and pragmatics of natural languages ethnographic monitoring and bilingualism and biculturalism in education part four covers language and content in bilingual education language acquisition and language learning in late entry programs a canadian bilingual education program curriculum development in l1 and l2 in a maintenance program and curriculum language contexts part five assessment encompasses problems in assessment of the effect of language education policies in a multilingual society language dominance and pedagogical considerations and criteria to assess spanish reading instructional materials the last section describes the activities of the national network of centers for bilingual education ah
